

To: Town of Bozrah Inland Wetlands Commission
From: Katey DeCarli, Wetlands Agent (CHA)
Date: August 4, 2020
Subject: Wetlands Agent Activity Report

Below is a brief summary of the various wetland inquiries, permitting, and enforcement activities for the month of July 2020:

- Route 82 Sewer Project: I conducted an inspection of the silt fence at this completed project on July 7 and contacted the developer for maintenance. The sloped road shoulder is not stabilized at all and it is my understanding this has been an on-going issue. The contractor (Geeleher) is scheduled to repair the silt fence and hydroseed the slope using a tackifier the week of August 10.
- Scott Hill Road (DPW): I met with DPW Bill and First Selectman Carl at the site on July 21. We confirmed the site has stabilized enough to remove the straw wattles and that additional stone will be placed in front of the flared pipe end outlet when the wattle is removed.
